REPLY TO PAPER NO. 2

Sir:

In response to the office action mailed July 31, 2002, please amend the above-referenced patent application as follows:

IN THE SPECIFICATION

Please amend the specification on page 4, line 7, to read:

Referring next to Figure 2, not only may a tightly or loosely coupled connection be implemented between the source 12a and the sink 14a, but moreover, a given source 12a may provide power to a plurality of sinks. Thus, in the example shown in Figure 2, the source 12a may be an AC adapter and the sink 14 may be a mobile computer system 14a. A link 16c with plugs 24 and sockets 22 provides connections between the sink 14a and the source 12a. Particularly, a plug 24a plugs into a socket 22a on the sink 14a and a plug 24b plugs into a socket 22b on the source 12a. The source 12a is coupled to a source of AC power indicated at 18.

IN THE CLAIMS

Please amend claim 1 as follows:

Date of Deposit: August 21, 2002
I hereby certify under 37 CFR 1.8(a) that this correspondence is being deposited with the United States Postal Service as first class mail with sufficient postage on the date indicated above and is addressed to the Commissioner for Patents, Washington, DC 20231.
